
Southern Tasmanian Journey (Australia)

Here's a ref. to a good slide show on a trip in open sea south of Tasmania. Spectacular, some sailing, it can get quite hairy down there and the water is cold!

I've sailed down there but never paddled though I've been to some of the places on the route.

Here's their home page

I'll post them a ref to the Mag Ed.

Excellent--thanks, Jeff!

How's winter? Seen any snakes?
